Cultivating Diversity - Watch the Replay!

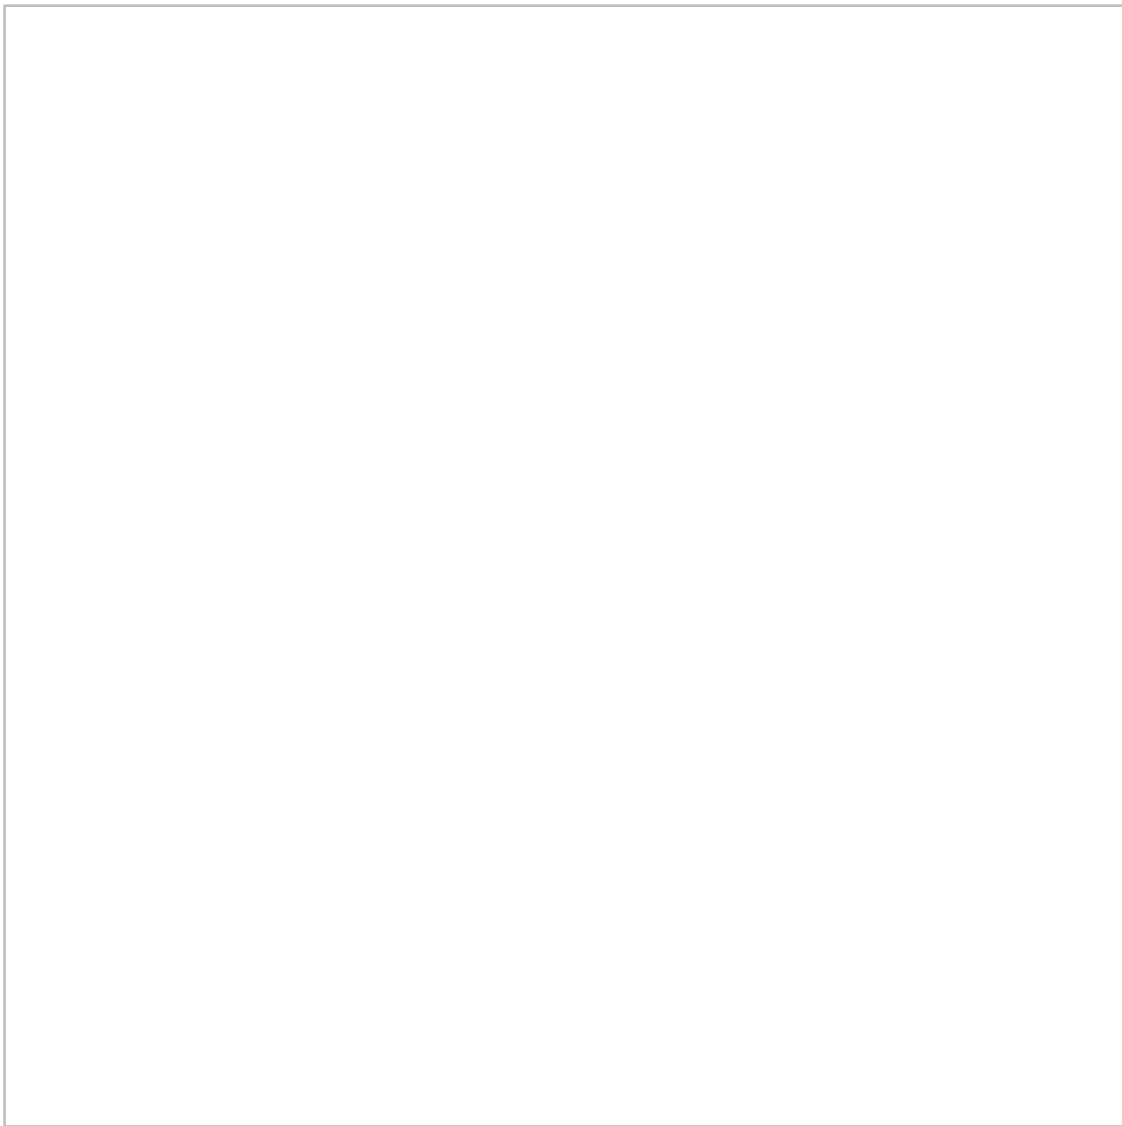

*Expert panelists discuss the diversity gap in Canada's infrastructure sector
and how companies can effect change within their own organizations.*

We had a great discussion last month taking a look at some of the construction and infrastructure industry's most innovative ideas that can help cultivate more skilled and diverse workforces. The panel took an in-depth look at how companies are attracting top talent as well as what's important to young people, women and other under-represented groups in the infrastructure sector.

If you missed the webinar and would like to learn more about Cultivating Diversity and Attracting Talent, you can watch the replay here:

Up Next: Uncovering Water Infrastructure Solutions

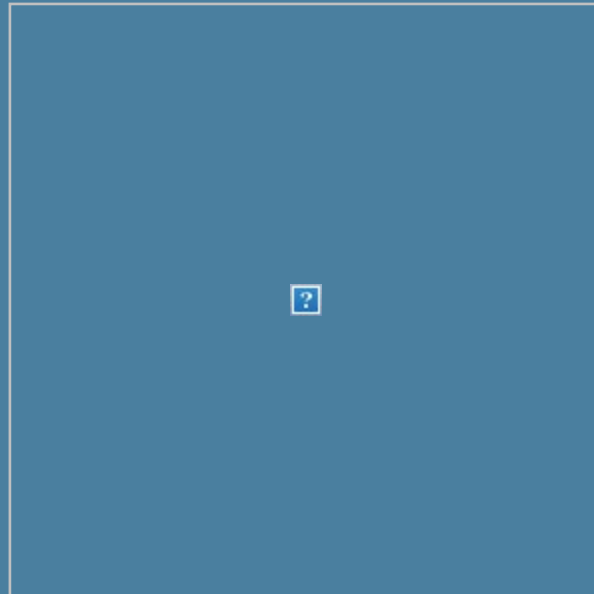

In this important discussion, linear water infrastructure experts discuss the findings of [ReNew Canada's](#) recent survey. Panelists will provide expert perspectives on underground infrastructure renewal options — rehabilitate or replace. They will also answer questions about the priorities involved in the decision-making process and other water/wastewater infrastructure issues. How do municipalities and water utilities decide how to rebuild or renew their pipes? What are their key concerns? Environmental benefits?

Register today to get find out what challenges Canada's water infrastructure sector faces and how it plans to meet those challenges:
