RE: Kawartha Conservation Transition Plan

Dear Mayor Grant, Deputy Mayor Smith, and Members of Council:

We are pleased to provide our Transition Plan supported by our Board of Directors, and approved by Resolution #116/21:

RESOLUTION #116/21

MOVED BY: Cathy Moore
SECONDED BY: Ron Hooper

RESOLVED, THAT, the draft Transition Plan be approved, AND,

THAT, the Transition Plan be distributed to participating municipalities, the Ministry of Environment, Conservation and Parks, made publicly available, and conform to criteria as prescribed in the regulations.

CARRIED

Recently proclaimed provisions in the Conservation Authorities Act (CA Act) and accompanying regulations require that conservation authorities enter into a Memorandum of Understanding or agreement with participating municipalities to fund certain programs or services that are not deemed to be mandatory core services.

The Transition Plan document provided outlines the process and timelines proposed in the development and execution of MOU's/Agreements with our participating municipalities and has been prepared in consultation with adjacent Conservation Authorities, as well as early discussions with some municipalities.

The Transition Plan has also been shared with the Ministry of the Environment, Conservation and Parks, and made publicly available on our website.

If you have any questions, or if we can provide further information, please do not hesitate to contact me at extension 215.

Transition Plan

Introduction

The Conservation Authorities Act requires Conservation Authorities to prepare Transition Plans outlining steps and timelines for the preparation of an Inventory of Program and Services and for the development and execution of funding agreements between Kawartha Conservation and participating municipalities.

Funding agreements are to be struck for programs and services that are not deemed to be provincially mandatory core services outlined in the Conservation Authorities Act and associated regulations as outlined in Regulation 687/21 “Transition Plans and Agreements for Programs and Services” established under Section 21.1.2 of the Act.

This transition plan is relevant for participating municipalities that share geography with our watershed jurisdiction: City of Kawartha Lakes, Region of Durham (and its lower tier municipalities: Township of Brock, Municipality of Clarington, Township of Scugog), Municipality of Trent Lakes, and the Township of Cavan Monaghan.

Timelines and Deliverables

Transition Plan

This Transition Plan is required to be completed by December 31, 2021, and distributed to member municipalities, the Ministry of the Environment, Conservation and Parks (MECP) and made publicly available.

Inventory of Programs and Services

An inventory of program and services is to be prepared and circulated to participating municipalities by February 28, 2022.

The inventory of programs and services will be classified as mandatory, performed on behalf of a municipality, or determined for consideration of funding to municipalities. These categories are further identified in Section 21 of the Conservation Authorities Act.

The inventory will include an estimate of the annual cost of the service, sources of funding and the percentage attributed to each funding source, and may be refined as agreements are worked on, until January 1, 2024.

Municipal Agreements

Agreements will be required to be in place by January 1, 2024, with participating municipalities for non-mandatory programs and services where municipal funds are required. An option to extend this timeline from the Ministry can be applied for no later than October 1, 2023, with supplied rationale.

Interim and Final Reporting

Interim reporting will be required to be submitted to the MECP on a quarterly basis starting July 1, 2022, outlining progress on the development of municipal agreements and any changes in the inventory of programs and services. A final report is due to the MECP January 31, 2024, confirming that agreements are in place, and forwarding the final inventory of programs and services.

Workplan

The following workplan lays out steps to be taken and associated timelines to develop and enter into funding agreements with the partner municipalities for:

- non-mandatory programs and services at the request of a municipality with municipal funding through a MOU, and,
- programs and services determined to be advisable by the conservation authority, where municipal funding is needed.
