Dear Ms. Svelnis,

RE: Call for Proposals Coming in September for the Identification of Site for Proposed New Hospital

As you are aware, Lakeridge Health currently has an independent site selection process underway to identify and protect land for a proposed new hospital in Durham Region. Earlier this month, a public consultation was launched to give members of the community an opportunity to provide input on what is important to them when it comes to selecting a site for a future hospital.

As a next step in the independent Expert Panel's work, a Call for Proposals will be issued for the identification of a site. The Call is expected to be issued in September and interested respondents will be asked to submit their proposal.

In July, Lakeridge Health engaged Durham Region community members on the draft site selection criteria through a public survey, focus groups with subject matter experts, and a community townhall. The Panel is in the process of finalizing the site selection criteria based on the feedback received and will be using that to score all proposals.

Lakeridge Health will be welcoming landowners to submit their sites for consideration, and all interested parties will be encouraged to carefully review the final site selection criteria contained in the Call prior to submitting their proposals.

For more information on the site selection process, please visit the Lakeridge Health website at www.lh.ca. If you have any questions, please feel free to contact us via lakeridge.health@strategycorp.com.

Sincerely,

Altaf Stationwala
Expert Panel Chair
