## AMO Conference Update:

# Thank you for Attending AMO 2020 Conference Wrap-up Video

Thank you for participating in AMO 2020 and helping to make AMO's first ever virtual conference a success. You had confidence that AMO could bring all orders of government together, 5 months into a global pandemic, to share experiences and lessons learned, and to have important conversations about public policy, economic recovery and social change.

Thank you to more than 1,500 participants, 46 exhibitors and 22 sponsors. Thanks to our amazing speakers and presenters. Thank you to our government partners for your enthusiastic support and collaboration – including 481 delegation meetings with Cabinet Ministers and Parliamentary Assistants. Thanks to all the provincial party leaders.

Thank you voting delegates for making on-line voting a success with 66% of eligible electors voting for the next AMO Board. Thanks to our technology, production and communications partners who made the conference possible. Thank you TVO for your partnership in the conference and for igniting potential through the power of learning for 50 years.

Thank you all for supporting AMO and the work we do on behalf of communities large and small, in every part of Ontario.

Don't forget you can [log-in](#) to the AMO 2020 conference site for 30 days following the conference to have another look, to check out any session you missed, and to review outstanding on-demand features and videos.

Please take a moment to view this conference [wrap-up video](#), prepared by TVO, that captures the highlights of three days of AMO 2020.

Re: Region's supportive housing project in Beaverton  
'Proposed facility would become Durham Regions own CAMH'  
Why in Beaverton?

- No 'Public Transit' to speak of...
- No 'Job's' or employment opportunities to speak of
- No 'Mental Health Resource's' locally to speak of
- Lakeview Manor has been & continues to be lacking in its own resources let alone earmarked as a support 'rap-around' resource.
- Proposed facility would be less than a kilometer from public parks, playgrounds, harbour & children's splashpad.
- Will become a 'magnet' for hundred's of patients.. mostly from the south
- No logical reason other than 'low property value expenditures' to the Region in relation to south Durham property values.

CAMH: Recent Public Safety Record

- Wednesday, July 31, 2019 7:39PM EDT: Public safety warning after another patient goes missing from CAMH
- Man who fled country after disappearing from CAMH was 'threat to public safety': review board
- CAMH to conduct external review after at least two patients go missing
- Reviews launched after Ford questions how 'nutcase' disappeared from CAMH
- Man charged after walking away from mental health facility, allegedly robbing two stores
- Residents in the Queen West area are sounding the alarm after several patients with criminal backgrounds have gone missing from the Centre for Addiction and Mental Health (CAMH).

The statement: "Its a no-brainer" was absolutely correct... but not in the context it was made.

**Subject:** Beaverton Housing the "unsheltered"

Debbie &amp; Ted,

Over the last few days I've read the Region's announcement for a new type of housing to be put at the Lakeview Manor/Gillespie Garden's site. I do understand that Regional Council is coming from the point of compassion in trying to do the right thing. I'm baffled and possibly appalled that the Regions Planning and Housing Departments support this. You can look at cases right across North America in many cities and communities and easily find where this project is doomed to fail. Take Toronto's "Regent Park". While times are different and the scale of the 2 projects are not even comparable, in the end, the failing principles will be the same.

Regent Park was built and designed with no commercial/retail. They did and are now slowly addressing this decades later, why? Because residents need to not only shop but need to find jobs; entry level jobs generally in service, retail and industry. Where will these individuals shop for affordable food and clothing? Where are they meant to look for employment? Not close by, not in Beaverton. The Brock Foodbank in 2019 (presentation to Beaverton Lions Club) had already predicted a financial shortfall for 2020 as they have seen an increased need (and this was before COVID). Is the Region going to support this? Or will this again fall onto the shoulders of our community groups?

Another Failure of Regent Park was the "isolation" of the project. The Garden City approach of Regent Park seemed to exclude the residents from their city and former community. I'm guessing many of these new residents will not be coming from Brock or possibly not even North Durham. Will that be a shock for many of them? Taking them out of their current bigger community with more amenities - I'm willing to bet it will be a shock. They will be isolated.

Another failure was the city designed the project for the "Cabbagetown" community (the poor) but intended for mixed income. In the end I believe only about 20 % of local residents were ever accepted into the project leaving the local community in discontent, segregating the project even further. And while I hate to use the term, because they are people and they are people that need homes and support - it became a "dumping ground" for the entire city and was never mixed income.

I assume, as I have, you have also heard some of the colourful stories of Brock's newest public housing. Again we have local residents that cannot get into Beaverton or Cannington's newest housing. Housing that the community thought was for them. On any given day Beaverton now has one or 2 people begging for money outside one of the banks. Apparently in Cannington some new residents prefer to shop in a towel or nothing at all.

I get it - there are people out there with real problems and need help and assistance but this isn't a good plan. Since amalgamation, Brock has been haphazardly moving along with no plan and only politically motivated. In the 90s Brock said no to doubling the size of FlexNGate, our largest manufacturer at the time, so no new jobs. In the Late 90s Durham and Brock began allowing McDonalds, Loblaws, & Tim Hortons to move out of the urban boundary (another textbook No No) and now we're dumbfounded why Beaverton's downtown core is struggling (textbook). And there is more highway development to come. Beaverton's downtown is struggling and there are no opportunities - let's bring in the homeless and the poor? Maybe that sounds harsh but that's poor planning and take a look at other communities across the province when urban areas start to sprawl and what happens to the downtown, like maybe Oshawa for example?

Brock Township has been asked to shelter the homeless of Durham and yet it seemingly continues that Durham won't invest into the infrastructure of Brock and provide better services and places for people to work locally. So nowhere to work, no where to shop, no connection to the community. There is talk about social services and professional help but will it be full time? Onsite? Or will this be another part time, temporary commitment (office hours) from the region that will fade away out of Brock.

There is the possibility that the Brock Community Health Centre could help but it is set to be built in Cannington and why? because it's the geographic centre? makes sense? I'm guessing 60% or more of the Brock population live in Beaverton and Thorah Township. That is likely why Durham built the biggest water and waste water plants in Beaverton. It is seemingly the place to invest infrastructure. That is why there is room for more public housing but we don't have the services to support it.

With all due respect, I think Brock (Beaverton) is being swindled into a failed project. It will look good on the Regional Councillors in the south and they can pat each other on the back and clean their streets but will have lasting long term impacts on our small and growing community. This project urgently needs to be reconsidered.

**Subject:** Re: New Bvtn Social Housing

Paul,  
I just got around to reading the e-mail you sent a few days ago.  
Thanks for the information.  
Just a few things that immediately come to mind, after just seeing that there was a triple stabbing outside the Roehampton Homeless facility in Toronto! The crime, drugs, etc. In that area now has increased and we do not need that here in Beaverton.

I do understand that homelessness is a huge, growing problem, however....  
These people are not upstanding citizens that have just fallen on hard times for the most part.  
My concerns in point form

- putting this type of facility right beside a nursing home for vulnerable seniors (Lakeview Manor)
- the facility located beside a senior living complex (Gillespie Garden)
- all the bungalows in that area are mostly retired people who probably moved to this area to get away from stress
- proximity to Edengrove Senior living
- Beaverton has a very large population of retired residents
- we already have a methadone clinic....right on Main Street!!
- I know for a fact 1 or 2 businesses that have left Main Street Beaverton because of that clinic and the clientele it attracts
- there are no job opportunities in the area
- there is no transportation in the town other than Go bus

I feel this would have a HUGE negative impact on the growth of a town already struggling to keep small businesses, etc. If it, in fact, is a transition facility, it would not be well served in Beaverton. Beaverton does not need this. Beaverton needs positive, progressive investment to ensure the town moves in the right direction.

Just my thoughts.  
Cheers  
Doreen  
P.S. I did not have Debbie Bath-Haden's e-mail

On Aug 22, 2020, at 12:25 PM, Paul H. Nelson [redacted] wrote:

Info related to yesterday's dock discussion about new social housing units on Regional Lakeview Manor/Gillespie Gardens property at link below..

The Region DOES have the right to proceed, but should listen carefully to public input. This type of housing MUST have adequate in-house support services, with mental health specialists as my top concern. And will certainly NOT help house values in the immediate GG area.

Fifty or more struggling people with specialized needs as a lot to drop into any small community like Bvtn !

**Subject:** 133 Main Street Housing Project

Dear Madam Mayor,

*While we support the provincial investment and goals for this type of housing and We understand it will reduce the cost and demand for services for the target population - We'd like to understand HOW Beaverton became the chosen location and why our council was apparently unaware of that initial planning. The following below are some collected statements of concern from residents Cedarhurst Beach, Cedar Beach and Eden Grove.*

- Needs: What is the real need for this housing in Beaverton? Is there an intent to relocate disenfranchised individuals here? (Somehow Beaverton was designated as a priority location...)

- Support Services: We have limited local social, health, education, employment, policing and transportation services in Beaverton. What are the plans and defined funding to enhance these services?

- Location: A similar residence in Lindsay has had recurring issues with theft, drugs, brawls, guns, property destruction, etc. Why put that risk so close to a seniors residence, and in a waterfront neighbourhood that has million dollar homes? Would it be better to locate these homes near the new health care center in Cannington?

- Long term: What is the long term plan for funding, maintenance and services? What direct and indirect costs will fall to Brock taxation base?

"Wrong location and could be extremely detrimental to such a very small community.

1. We do not have the ongoing police presence to manage situations that WILL arise . It must be located in an area where there is constant police availability such as Oshawa, Whitby, Pickering where in all likelihood many would be coming from.

2. Such a small community as ours simply does not have the supervision, recreational and employment opportunities that would be required in order to allay mischief and crime in our community. We have more than our fair share of the "ill and needy" in this community thanks to the legal drug distribution placed in an inappropriate location- Beaverton."

"What is the real need for homeless in Beaverton. Is there a current need or are they relocating disenfranchised to a community that has no support?"

- what supports will be offered to residents? We have limited local social/health services in Beaverton. Would it be better to be near new health center in Cannington?
- And I'm not sure the location next to the Manor is the right solution....There were many 'issues' that occurred in Lindsay - brawls, guns, destruction, drug paraphernalia lying around, etc. Why put that risk so close to a waterfront neighbourhood? "

"How can Mayor Bath Haddon support this initiative without any community consultation ? We haven't any transit, nor village grocery stores, No police presence or doctors. Why not supportive housing in a town closer to the city, where employment and social services are available. I'm scratching my head here? This is not a NYMBY response, my career was in the field with the homeless and City of Toronto Shelters. A perfect example is the epic failure of the Kawartha Lakes Housing Corporations in Lindsay . "

<https://lindsayadvocate.ca/needle-and-the-damage-done-drugs-in-public-housing/>

<https://www.mykawartha.com/news-story/9584667--it-s-just-a-building-of-doom-lindsay-affordable-housing-petition-launched/>

" These individuals that would be moving up to live in these facilities and also those living here must be served, loved, and cared for in the appropriate location. This proposal is insanity in this tiny community, unable to provide employment, medical and physiotherapy doctors , education or public transportation.

Why is it happening? Due to our size and hoping that most of the individuals living and retiring in this little touristy town won't "kick up" a fight. Perhaps Larger more sophisticated towns/cities will , so I'm going to be asking questions and demanding accountability from our Brock Township leaders on WHY this is little village has this being dumped on our backs. Mayor Bath-Haddon lack of consultation with the community is appalling.

"Where are the resources for these people?

Beaverton has no hospital, walk in, social workers, not even a grocery store to get to without a car.It makes me wonder... who's pockets are getting lined to build this complex? This is not a responsible solution!  
These unfortunate people need way more than what this small town is able to supply!"

*We hope that our collective voices will be heard, with consideration and consultations to we the people who elected you in Office.*

*We request a public meeting ASAP but, For now will settle for a statement from you Madam Mayor on HOW this housing project was assigned to our little village....and the location, beside a LTC facility, across from the fair grounds , play grounds and community centre. Absolutely insane planning.*

With regards,  
Colleen McKenna

**Subject:** Region of Durham Housing Proposal

Hi Mike,

I received a copy of Durham Region council minutes (July 29th) related to Expedited Supportive Housing Development located at 133 Main St. in Beaverton. I'm wondering if you could provide more detail on this proposed development and why there hasn't been public consultation to date on this development plan. Public consultation provides the community an opportunity to hear about the proposal and provide feedback to the Township and municipality. I'd be interested in seeing how these types of developments work, success stories and impacts to local communities. I'd be interested in understanding why Beaverton was identified as the preferred location and what factors were considered in the decision making process. I assume Durham Region owns land across the Region that could be used for similar projects.

I'm interested in understanding if Beaverton has the social support systems in place for this type of development. Beaverton currently is looking for a doctor or nurse practitioner for the Medical Centre. What other social infrastructure like police, fire and EMS will be necessary to support this and other planned and approved developments?

I understand there may be social benefit for Brock and Beaverton which is important. Is there an economic benefit for Brock and Beaverton with this development? We pay high taxes already. Typically, new development is required to pay development charges that benefit the township. I suspect there will be no development charges received with this type of development. Will our local Brock tax levy rate support this development or will it be self supporting through subsidies from the Province or Federal government today and in the future? It's great to say we are going to build this development, but have considerations been given to the long term costs to operate, maintain and rehabilitate this development and the various infrastructure servicing it (water, sewer, roads, sidewalks) in the future.

Regards,  
Peter Bornemisa

**To:** Council  
**Subject:** Supportive Housing???

Councillors, Mayor,

If the information I have received is correct, decisions that will effect my neighbourhood, real estate values, safety in the community and overall well being of my neighbours and my family have been made without input from the voters that elected you. Please feel free to correct me if I am wrong.

As I have not heard from Mr Jubb, my ward councillor, on this issue, as he tends to keep his ward up to date on a variety of issues effecting his constituents through social media , including the service of each business in our town, one can only assume that the region is trying to shove this down our throats. Again please feel free to correct my guessing, but that is all that a person can do when they are kept in dark.

I have 2 questions,

1. Mr Jubb, were you aware of the supportive housing project and agree to it without any input from your constituents ?
2. Mrs Mayor, Did you agree to this at a regional level without involving your brock constituents?

If either is the case, shame. Your constituents deserve more.

Roderick Besaw

I want to voice my concern over the 50 unit supportive housing complex proposed by Durham region to be built in Beaverton.

Firstly, I am concerned that the township and Beaverton residents were not consulted on this project. I feel that a plan like this should certainly go through a regular constituency process. Rather, we were only informed of the project last week, and were told that the proposal is being expedited and that it will be moving forward regardless of concerns. This news has come as a surprise to our local residents who are being told that approval comes from the Ministry of Municipal Affairs and Housing, regardless of local concerns.

I am quite curious how Beaverton was selected as the most appropriate sight for the project? At this time we struggle to support our own residents due to a lack of resources and infrastructure, so we are all quite confused how we will be able to provide support to additional residents who are already high risk and require significant support. We don't have a doctor, a hospital, bus service, taxi service, a grocery store that is within walking distance, employment opportunities, social services or extracurricular activities. In the last decade we have seen an influx of high risk individuals to Beaverton, without the supports to help them or house them, which is quite disheartening as these individuals struggle within our own community. According to this proposed project, north Durham's unsheltered residents will not receive any preferential placement at the housing complex, which is quite ridiculous considering it is being built in our community and directly affects our neighbourhood. As this project seems to be linked to Oshawa, which has the infrastructure to support these vulnerable individuals, it is unclear how Beaverton, which is the one of the farthest points in North Durham, is being selected to as the site for the complex. I would like to know how this decision was reached and what research supports it.

Mike

I do not believe enough research has been done regarding the Supportive housing that is being planned for Beaverton. I do not think Beaverton has the diverse support mechanisms in place that residents of this type of housing require. I believe there are other locations in Durham that are significantly more suitable in terms of meeting the needs of the residents that this type of housing is designed and expected to provide.

I trust that Brock Township will review their support of this project and that other locations will be given serious consideration before this project moves any further ahead.

If I need to express my concerns in greater detail please let me know who I should be contacting.

Thank you,

Nicola Speakman

**CERTIFIED TRUE COPY**

Moved By: T. Turner  
Seconded By: L. Cyr

THAT the City of Elliot Lake Council acknowledges and supports the following Private Member Bill put forward by Majid Jowhari: M-36, Emancipation Day, 43rd Parliament, 1 Session that reads as follows:

"THAT the House recognizes that:

The British Parliament abolished slavery in the British Empire as of August 1, 1834;

Slavery existed in the British North America prior to the abolition in 1834; Abolitionists and others who struggled against slavery, including those who arrived in Upper and Lower Canada by the Underground Railroad, have historically celebrated August 1st as Emancipation;

The Government of Canada announced on January 30, 2018 that it would officially recognize the United Nations International Decade for people of African Descent to highlight important contributions that people of African descent have made to Canadian society, and to provide a platform for confronting anti-Black racism;

The heritage of Canada's peoples of African descent and the contributions they have made and continue to make to Canada and in the opinion of the House, the Government should designate August 1 of every year as "Emancipation Day" in Canada; and

THAT support for this motion be sent to the Member of Parliament for Algoma and all House of Commons representatives; and

THAT support for this motion be sent to all municipalities in Ontario.

Resolution No. 249/20 Carried Mayor Dan Marchisella

August 24, 2020

## AMO Policy Update – Orders Extended, New Direction regarding Facilities

### COVID-19 Emergency Orders Extended

The Province has [extended](#) its COVID-19 emergency orders for up to 30 more days. All orders under the *Reopening Ontario (A Flexible Response to COVID-19) Act, 2020* (ROA) have been extended to September 22, 2020, with the following exceptions:

- the [Education Sector](#) order will end on August 31, 2020
- the [Limitation Periods](#) order will end and suspended time periods will resume running on September 14, 2020.

### Additional Direction for Facilities

The Ontario government is [easing restrictions for facilities](#) that rent out professional meeting and event spaces. Beginning August 21, 2020, facilities can have up to 50 guests for each indoor meeting room or event space within the facility. The facility must follow a plan approved by the Office of the Chief Medical Officer of Health.

The current indoor gathering limit will now apply on a per meeting room or event space basis at professional meeting and event facilities, including convention centres, hotels, motels, resorts, banquet halls and conference centres. Outdoor meeting and event facilities remain subject to the 100-person gathering limit for the entire outdoor area. Capacity limits exclude employees or event personnel.

In addition, new regulatory amendments have come into force requiring contact information for only one person in a party entering indoor or outdoor dining areas starting today, with exceptions. This is designed to reduce the administrative burden, while continuing to support case and contact tracing.

AMO's [COVID-19 Resources](#) page is being updated continually so you can find critical information in one place. Please send any of your municipally related pandemic questions to [covid19@amo.on.ca](mailto:covid19@amo.on.ca).

**Mike/Ted/Others:** Please accept this email as our personal input towards Regional Council's consideration of new social housing infrastructure at the LM/GG site in Beaverton.

1. Social housing in several forms is required to support those who truly require and deserve taxpayer funded assistance, but NOT for those capable but unwilling to help themselves.
2. Assisted housing; especially projects for special needs clients; should be purposely placed where necessary support and community services; especially mental health services; are readily available. Job opportunities and public transportation should also be strong governing factors; and Beaverton lacks both, in spades.
3. 40 to 50 persons with extra social and mental health care needs seems a large and overpowering challenge to "impose" on a small rural town like Beaverton. Would the project's placement not be better place in a more central Durham location ? Of course it would.
4. Although Regional land ownership/social housing zoning is a plus during any project discussion, I fear that Beaverton was a convenient out-of-sight/out-of-mind choice by Regional Council.
5. The mere size of the project; 40-50 persons with extra special needs; seems overwhelming. Has the Region considered smaller projects for special needs projects ?
6. What other specific sites were considered by the Region for this project; as well as the Region's Housing Task Force; and how did LM/GG win out ?
7. Beaverton already has more than its share of community difficulties with mental health, drug use, loitering, panhandling, a drug clinic, and related criminal activities that usually accompany special needs facilities like the one being proposed.

8. I remind you of the ongoing serious problems for surrounding communities at 2 recently organized, similar Toronto facilities in the Eglinton/Mount Pleasant area; 3 persons stabbed just last evening.
9. For the past few years, the McLennan Beach/Cedar Beach area has suffered significant disturbance, reduced own property enjoyment and safety concerns related to a truly disturbed 36 year old male who has imposed his vulgar rantings on any/all neighbours within earshot; and speaks of family-related harm during some of his loud episodes. Confirm with DRP Services if you wish; who have been on site many times, and eventually helped guide this mentally ill person towards some type of care; but for how long ??
10. So imagine our real and justified concern about the possibility of several such additional persons being dropped into our small community without the availability of needed control and treatment features?
11. Where was the pre-project public consultation process for Beaverton? Seems like the Region just "imposed" the project on Beaverton, rather than working WITH the community ?
12. If the project continues to be "imposed" on Beaverton, but hopefully on a smaller scale, what are the REAL, full time, hands-on, specialists who would be included 24/7 to make sure all community concerns are properly addressed?
13. Would facility residents' daily schedules be monitored and controlled by specialist staff, including necessary professional appointments ?
14. Would the project include any "secure" units/areas for extra challenging residents, manned by qualified staff ?
15. What is the ongoing process for Beaverton residents to be truly informed (not surprised) by the Region's ongoing project development ?

As you can sense from points above; the Nelsons and many others in our and other areas of Beaverton have real and justified concerns about the Region's seemingly mis-guided intent to place a large, specialized, social housing development within a small rural town that is NOT well suited to absorb such a facility or its intended residents' real needs.

**Please make sure this input is added** to Brock Council's project discussions, as well as the Region's ongoing decision making process. Hopefully enough Regional reps, including Brock's, will realize that this specific project is better located in the central/south area of Durham, and that the presently proposed Regional land is saved for more appropriate seniors housing projects in a small rural town.

**Please keep us updated. Thanks !! Paul & Janis Nelson,**

Please find below the email I sent to Mike Jubb this morning outlining my opposition to the Supportive Housing Plan that is being proposed for development in Beaverton.

I do not believe Beaverton can:

1. guarantee these residents the medical support that is in keeping with their diverse needs
2. offer easy access to a grocery store
3. provide job opportunities that match their employment qualifications
4. provide affordable and regular transportation options to access a workplace that is not in Beaverton

A larger community in Durham Region would be able to provide this support and would be significantly more suitable for this type of housing.

I will also be sharing these views with John Henry, via his Durham Region email contact page.

Thank you,

Nicola Speakman
